

The objective of the foundation is to encounter every issue concerning Aliens Law in both theory and enforcement, regarding National, Community and International Law. Particularly, it concerns the advancement and reinforcement of the legal framework and the encounter of the problems that arise from its several operative provisions, ultimately aiming at equity, citizen's equality and respect of human rights. The accomplishment of the objective is particularly intended through the systematic observation and support of the work of the agents who undertake the formation of the law in question. Through the cooperation with the agents who engage in the theory of Aliens Law or, actively and systematically, in its application in practice. Through the periodic assemblies of the members, the lectures, discussions, pronouncements and articles of general theoretical and practical interest. Through convening and organizing conferences, contacting with allied associations, unions, organizations and Organisms inside and outside the greek territory. These references are indicative.
